

# Manchester Police Department

The Manchester Police Department has received two official reports regarding suspicious “White Vans” within the Cross Roads, Whispering Valley and Hallie Communities. As of this date, we have no detailed information regarding the suspicious “White Van” or the driver/passengers. As of this date, we have no crimes reported involving a “White Van” and the reported activity can only be deemed Suspicious in Nature.

I can assure you, we take this information extremely serious and we act on it. We have stopped, tracked and identified several “White Van” operators. None of them have been deemed suspicious. Some of the operators are honest hard working individuals who reside in the Community and or within the North Carroll Community.

We have put the schools and bus companies on notice for lookout duties. Your Department of Public Works Personnel is on look out.

Your Police Department has been in the area patrolling in marked vehicles and covertly.

Please if you see something, say something immediately and call 911, but please obtain sustained information and tag information. I do not want our children believing all white vans are being operated by a villain. This will only hinder our efforts and benefit a true predator. Also it is not fair to the law abiding individual who needs to drive a “White Van”. We have been coordinating with the Sheriff’s Office, State Police and School Security. If you have information, please call the Manchester Police Department @ 410-239-6900 or email us [info@manchestermd.gov](mailto:info@manchestermd.gov) or send a message via our Town’s Facebook Page. Your cooperation is truly appreciated.
